

G FAMBE BRICK SERIES

Product ID	:	GF-N01
Series	:	G Fambe Brick Series
Material Type	:	Modified Clay Material
Thickness	:	2 - 3 mm.
Curvature	:	R20
Weight / Sq.m.	:	3.56 kg / Sq.m.
Size	:	230 x 59 mm.

G FAMBE BRICK SERIES

PRODUCT PROPERTIES

Safety & Environmental Standards

The material has been tested to international standards, is safe for users, and is suitable for spaces requiring good indoor air quality.

Self-Cleaning Surface

The surface does not easily accumulate dirt, making maintenance simple and preserving its appearance over the long term.

Odor Absorption & Release

The material structure absorbs airborne odors and naturally releases them when ventilation is present.

Natural Temperature Reduction

The material helps balance heat, reducing heat accumulation on wall surfaces and creating a more comfortable indoor atmosphere.

Class A Fire Resistance

The material is non-flame-spreading, enhancing safety in use, particularly in public spaces and large buildings.

Impact Resistant & Intact Panels

The material structure is tough and flexible, reducing damage from impact and real-world use.
